Dipartimento
di SCIENZE GIURIDICHE

Laboratorio di Didattica Innovativa IDEA "Simulazioni processuali, competizioni e Moot Court"

Team selection for the

29TH Willem C. Vis International Commercial Arbitration Moot

The *Willem C. Vis International Commercial Arbitration Moot* is the most important and renowned university competition based on the simulation of an **international arbitration dispute**.

Every year, an **international sale** problem is presented, the solution of which implies the application of the 1980 Vienna Sales Convention ('CISG') in the context of international arbitration proceedings. The students' teams, coming from all over the world, will take the role of legal counsels for the parties and compete through written *Memoranda* and oral arguments in **English**.

The first phase of the competition will be devoted to the study of the case and the drafting of *Memoranda* for the Claimant and the Respondent, respectively. Then the oral hearings, which are attended by about 400 universities each year, will take place on April 8th to 14th, 2022. For the third year, the competition will be held **online**.

The participation in the *Willem C. Vis International Commercial Arbitration Moot* offers students a great opportunity to test themselves with the transnational practice of law. Participating students will be able to be in contact with colleagues from all over the world as well as internationally renowned academics and practitioners, opening up to new opportunities for professional experience and further development of their studies.
