

Interactive Academic Laboratory INTERNATIONAL AND LOCAL GOVERNANCE ISSUES – SHAPING THE FUTURE

Online Meetings

September 10, 2020 – 10:30-12:30 (Lecture, Dr. Dirk Brand)

September 11, 2020 – 10:30-12:30 (Lecture, Dr. Dirk Brand)

September 14, 2020 – 10:30-12:30; 14:30-16:30 (Mentoring)

September 15, 2020 – 9:00-13:00 (Presentations & Resume)

It is proposed that the following topics be addressed during this program:

- State of the world today – global risks perspective
- The 4th Industrial Revolution and its potential impact in society
- Good governance and possibilities for legal reform in Italy
- The importance of the Rule of Law in domestic (Italian) and international geopolitical context
- Good financial governance at local level

The students who attend this course will be divided into small groups who must work together in analysing a case study. Due to the Covid19 restrictions, it will be an online course.

They must prepare a detailed presentation (PowerPoint or video) which will be discussed on the last day of the course: the aim of the case study is to confront the students with a complex but realistic scenario that could happen today, and they will be asked to use all their experience, knowledge and resources to develop a comprehensive solution to the problems.
